

# DR. ZENZEN ELITE WINES

# DR. ZENZEN'S "ELITE" WINES

Produced from only selected premium grapes, harvested under influence of "Vendange en Vert" (Green Harvest). Green Harvest is a relatively modern practice, most frequently used for producing finer wines. Removing the tiny, immature grapes while they are still green, induces the vine to put all of its energy into developing the remaining grapes. In theory this results in better ripening and the creation of more abundance and matured flavour compounds. In the absence of a green harvest, a healthy vigorous vine, can often result in the production of diluted and unripened grapes.

<b>Type</b>	<b>Riesling</b>
<b>Comments</b>	Qualitätswein b.A.; More care and effort in the developmental stages for harvest/production results as stated above. That is what helps create this wonderfully unique wine. The dryness style of the elite wines is different from the sweet style Rieslings, where the quality of sweetness overpowers the natural fruit aromas.
<b>Growing Area</b>	Germany Rheinhessen
<b>Alc. By Volume</b>	12%
<b>Taste</b>	Very compact, (a drier styled Riesling), having a bold ripeness coming from grapes of deep maturity; an elegant and long finish.
<b>Recommendation</b>	The best of companions for seafood, Asian cuisine, summer salads and light cheeses. Serve well chilled.
<b>UPC Code Bottle, 750mls</b>	0 86929 64020 6

<b>Type</b>	<b>Pinot Noir</b>
<b>Comments</b>	Qualitätswein b. A. - More care and effort in the developmental stages for harvest/production results as stated above. That is what helps create this wonderfully unique wine.
<b>Growing Area</b>	Germany Rheinhessen
<b>Alc. By Volume</b>	12%
<b>Taste</b>	A fruit driven, soft velvety Pinot Noir, with medium body. Aromas reminiscent of black currant and cherry. Wonderful finish. Very friendly.
<b>Recommendation</b>	Pairs well with widest range of foods, but perfect food companion for all red meats and pasta dishes. Stands well on its own.
<b>UPC Code Bottle, 750mls</b>	0 86929 64021 3
